---

Results are based on telephone interviews conducted July 8-11, 2010 with a random sample of ~1,020—adults, aged 18+, living in the continental U.S., selected using random-digit dial sampling.

For results based on the total sample of national adults, one can say with 95% confidence that the margin of error is ±4 percentage points.

For results based on the sample of ~528—national ad
