Princeton Job #: 11-06-011

Jeff Jones, Lydia Saad
June 9-12, 2011

Results are based on telephone interviews conducted June 9-12, 2011 with a random sample of 1,020 adults, aged 18+, living in all 50 U.S. states and the District of Columbia.

For results based on the total sample of national adults, one can say with 95% confidence that the margin of error is ± 4 percentage points.

For results based on the sample of 524 national adults in Form A and 496 national adults in Form B, the maximum margins of sampling error are ± 5 percentage points.

For results based on the sample of 914 registered voters, the maximum margin of sampling error is ± 4 percentage points.

Interviews are conducted with respondents on landline telephones and cellular phones, with interviews conducted in Spanish for respondents who are primarily Spanish-speaking. Each sample includes a minimum quota of 400 cell phone respondents and 600 landline respondents, with additional minimum quotas among landline respondents for gender within region. Landline numbers are chosen at random among listed telephone numbers, cell phone numbers are selected using random-digit dial methods. Landline respondents are chosen at random within each household on the basis of which member had the most recent birthday.

Samples are weighted by gender, age, race, Hispanic ethnicity, education, region, adults in the household, and phone status (cell phone only/landline only/both, having an unlisted landline number, and being cell phone mostly). Demographic weighting targets are based on the March 2010 Current Population Survey figures for the age 18+ non-institutionalized population living in U.S. telephone households. All reported margins of sampling error include the computed design effects for weighting and sample design.

In addition to sampling error, question wording and practical difficulties in conducting surveys can introduce error or bias into the findings of public opinion polls.

13. How important is it to you that the government takes steps this year to deal with each of the following extremely important, very important, moderately important, or not that important? How about [RANDOM ORDER]?

15. Which comes closest to your view about what government policy should be toward illegal immigrants currently residing in the United States? Should the government [ROTATED: deport all illegal immigrants back to their home country, allow illegal immigrants to remain in the United States in order to work, but only for a limited amount of time, or allow illegal immigrants to remain in the United States and become U.S. citizens, but only if they meet certain requirements over a period of time]?

	Deport <u>all</u>	Remain in the U.S. in <u>order to work</u>	Remain in the U.S. and <u>become citizen</u>	No <u>opinion</u>
