GOVERNMENT AGENCY RATINGS AND GOVERNMENT POWER

Results are based on telephone interviews with 1,016 national adults, aged 18+, conducted May 20-21, 2013. For results based on the total sample of National Adults, one can say with 95% confidence that the margin of error is ± 4 percentage points.

For results based on the sample of 523-- National Adults in Form A and 493--- National Adults in Form B, one can say with 95% confidence that the margin of error is ± 6 percentage points.

Interviews are conducted with respondents on landline telephones and cellular phones, with interviews conducted in Spanish for respondents who are primarily Spanish-speaking. Each sample of national adults includes a minimum quota of 50% cell phone respondents and 50% landline respondents, with additional minimum quotas by region. Landline telephone numbers are chosen at random among listed telephone numbers. Cell phones numbers are selected using random digit dial methods. Landline respondents are chosen at random within each household on the basis of which member had the most recent birthday.

Samples are weighted to correct for unequal selection probability, non-response, and double coverage of landline and cell users in the two sampling frames. They are also weighted to match the national demographics of gender, age, race, Hispanic ethnicity, education, region, population density, and phone status (cell phone-only/landline only/both, cell phone mostly, and having an unlisted landline number). Demographic weighting targets are based on the March 2012 Current Population Survey figures for the aged 18 and older U.S. population. Phone status targets are based on the July-December 2011 National Health Interview Survey. Population density targets are based on the 2010 census. All reported margins of sampling error include the computed design effects for weighting.

In addition to sampling error, question wording and practical difficulties in conducting surveys can introduce error or bias into the findings of public opinion polls.

1. How would you rate the job being done by [ITEM A READ FIRST, THEN ITEMS B-I ROTATED]?
 Would you say it is doing an excellent, good, only fair, or poor job?

2013 May 20-21

(uqtvgrf'd/ögzegmgpvl iqqfö)

	Excellent/ Good	Only Fair	Poor
	%	%	%
The Centers for Disease Control and Prevention, or the CDC	60	27	8
The Federal Bureau of Investigation, or the FBI	55	27	12
The Department of Homeland Security	46	28	23
The Food and Drug Administration, or FDA	45	32	21
NASA -- the U.S. space agency	42	32	10
The Environmental Protection Agency, or EPA	41	33	21
The Central Intelligence Agency, or the CIA	40	35	13
The Federal Reserve Board	33	34	21
The Internal Revenue Service, or the IRS	27	29	42
