### AMERICAN DREAM

---

Results are based on telephone interviews with a random sample of – 1,503 -- national adults, aged 18+, living in all 50 states and the District of Columbia, conducted March 19-25, 2018.

For results based on the total sample of national adults, the margin of error is  $\pm 3$  percentage points at the 95% confidence level.

Interviews are conducted with respondents on landline telephones and cellular phones, with interviews conducted in Spanish for respondents who are primarily Spanish-speaking. Each sample of national adults includes a minimum quota of 70% cell phone respondents and 30% landline respondents, with additional minimum quotas by time zone within region. Landline and cell phone numbers are selected using random digit dial methods. Gallup obtained this sample from Survey Sampling International. Landline respondents are chosen at random within each household on the basis of which member has the next birthday.

Samples are weighted to correct for unequal selection probability, non-response, and double coverage of landline and cell users in the two sampling frames. They are also weighted to match the national demographics of gender, age, race, Hispanic ethnicity, education, region, population density, and phone status (cell phone-only/landline only/both, cell phone mostly). Demographic weighting targets are based on the March 2017 Current Population Survey figures for the aged 18 and older U.S. population. Phone status targets are based on the January-June 2017 National Health Interview Survey. Population density targets are based on the 2010 census. All reported margins of sampl0 1 122.18 4.35 3 SSS(S)8.18 4.3(i)13(o)3393.3(i3( )-59(du)16)131(c)10(t)8(e)1(c)10(lu)15

1. In America, each generation has tried to have a better life than their parents, with a better living standard, better homes, a better education, and so on. How likely do you think it is that today's youth will have a better life than their parents--very likely, somewhat likely, somewhat unlikely, or very unlikely?

Very      Somewhat      Somewhat      Very      No  
likely      likely      unlikely      unlikely      opinion
